EDITORIAL

In Appreciation

Once again, it is time to express our deep sense of gratitude and appreciation to all the members of the Editorial Board, manuscript review panel, and the Column Editors for all of their hard work and efforts. Their support is crucial to the success of this Journal. Indeed, we are fortunate to have such a talented cadre of colleagues who contribute so much to the Journal. In particular, I want to express my thanks and appreciation to Maura MacPhee, PhD, RN, Associate Editor. She has worked very hard and diligently to solicit evidence-based practice and case study papers. She has done a superior job in working with a number of authors to support and assist them through the process of writing and publishing their papers. Additionally, she has been a source of inspiration and support to many others associated with the Journal. As the old saying goes, "Last year was great, next year will be even better!"
